Visit eset.com for information on the support
of older Kerio Control and Kerio Connect versions.

WHAT IT DOES

Antivirus and Antispyware	Features antivirus and antispyware plug-ins for Kerio Connect (SMTP and POP3 protocols) and Kerio Control (HTTP and FTP protocols)
	A single scanning engine services all scanning requests from Kerio Connect / Control
	Provides full-fledged server-as-client protection
	Powered by the advanced ThreatSense® technology combining speed, accuracy and minimal system impact
Remote Administration	Provides full support for ESET Remote Administrator
	Remote installation, automated integration with Kerio Connect / Control
Windows Installations Dual Support	Requires only one instance of ESET security solution if both Kerio Connect and Kerio Control are installed on the server
Smooth Operation	Allows you to customize settings via Kerio administration console
	Automatically cleans or deletes any infected objects (attachments)
	Downloads updates from the Internet or from the local mirror server
	Uses the same update packages as other ESET security solutions
